

## WP4 - Collaboration with country teams

---

- Overall objective of WP4 policy case studies: analyse the incentives and disincentives stemming from forest-related policies in the four countries & examine how they affect the behaviour of local stakeholders
- Desired input from the country teams:
  - **Policy inventory:** An overview of the key laws & policies in place in the country that affect deforestation & land-use decisions, and how they have evolved over the last decade or two, and the key actors -> overview document (based on template) and assemble primary documents – *6 weeks*
  - **Identify & make appointments with interviewees** (minimum 30 per country, at national & provincial level, over a span of four weeks) – *2 weeks*
  - **Logistical support:** interpreter, transport and hospitality arrangements – *4 weeks*

=> Total estimated effort: around three person months

## Regional case studies: proposed collaboration with partners
